**FRID 2016 Annual Business Meeting
Standing Rules (continued)**

13. A maximum of five members (5) in support and/or five members (5) in opposition of the motion/resolution on the floor, may debate each debatable item. Once five members have spoken in support/in opposition to an item, no other members will be permitted to speak in support/in opposition to that item. Each member is allowed a maximum of two minutes for debate. A member may be recognized a second time to address the same issue, only if there are no other members desiring recognition to address the issue on the floor and the maximum number of five in support/in opposition has not yet been reached. It is acceptable to move to close the debate if approved by a 2/3 vote when fewer than ten members have spoken.
14. Motions must be submitted in writing, on the approved motion form, and in the appropriate format: motion, the maker, the person who seconds the motion, and the rationale, a fiscal impact statement (if any), and local contact information.
15. Any voting member in good standing may submit motions at the meeting site. Due to time limitations at the meeting however, it is highly recommended that motions be submitted prior to the meeting.
16. The time allowed for the business meeting may not be extended; so all motions may not be heard.
17. All motions will be received by the president at any time during the meeting and referred by the president, with the advice and consent of the board, to the appropriate committee(s) for deliberation prior to presentation to the membership. The President shall refer any motions that are submitted on-site and not considered during the Annual Business Meeting to committees after the meeting.
18. Any motion submitted on-site during the Annual Business Meeting will be reviewed by the motions committee that will determine the motion's compliance with the Bylaws and assist the maker in formulating an appropriate, in order motion prior to being brought before the membership.
19. Motions/resolutions proposed by bodies within the association (local chapters, committees/, member sections/special interest groups) must be preceded with information as to the proper notification of members, date of the meeting at which the particular motion/resolution was adopted, verification of a quorum of the body at the time which the motion was adopted for presentation, verification that a majority of the body was in favor of the action to be proposed, and a fiscal impact statement.
20. These standing rules shall be amended or suspended by a two-thirds vote of the members present and voting.

Treasurer's Report

Terri Bugler

During the 2014-2016-member years, FRID filed taxes with the IRS on time, submitted the yearly filing with the State of Florida Department of Agriculture, as well as our annual report with the State of Florida Division of Corporations. These filings help ensure FRID maintains their 501(c)(3) non-profit status and can conduct business in the state of Florida. The Treasurer has worked very hard to ensure efforts are being made to maintaining a healthy FRID financial status. The duties have included:

- Check the Jacksonville PO Box once a week for mailed payments and communications with the FRID organization.
- Deposit payments made via check into the FRID account within two days, using restricted endorsement, which allows for the 'checks and balances' in the accounting process (so that one person is not responsible for handling all funds).
- Attended all Board meetings with the exception of summer meetings due to being out of the country.
- Hosted and coordinated the Deaf Interpreter Series of workshops through FRID in Jacksonville, FL.
- Provided registration services, through FRID, for the Medical Immersion workshop in Jacksonville, FL.
- Returned any communication via email in a timely manner.
- Worked hard to make sure all expenses for the organization are now organized under the Treasurer for payments via debit card (previously, the responsibilities were parsed to other Board members, due to the previously vacated Treasurer position).
- Assisted the Accountant in keeping monthly Profit & Loss statements and Balance sheets for FRID accounts.
- Weekly monitoring of the Wells Fargo accounts and PayPal accounts.
- Communicating/working with Board members to ensure a successful 2016 conference in Orlando.

The FRID financial status currently reflects that our organization is maintaining a healthy status. As of the end of the 2015-2016 FRID fiscal year, FRID had a net income/profit of \$5,103.00, compared to the net loss of -\$59.36 at the end of our 2014-2015 fiscal year. This profit is due to every effort being made to use cost-saving measures, in every category of business, to sustain the long-term financial viability of FRID. Some of these cost saving measures have included using Zoom for Board meetings to save on travel and accommodations expenses for Board members, establishing workshop budget templates to estimate expected income and expenses to help with the goal of breaking even or earning profit, and eliminating the Legislative consultant fees from last year's budget. All areas are examined regularly to see what cost saving measures can be done to help the organization.

For member year 2016-2017 there are a number of goals that the office of Treasurer would like to see accomplished.

1. Maintaining a fiscally healthy organization with profits, and create a balanced 2016-2017 budget.
2. All workshops held do so with the goal of breaking even or to have a profit.
3. Investing some of the current profit into a liquid account.
4. Pursue other avenues for FRID to “give back” to the Deaf and Interpreting communities through sponsoring educational, and advocacy opportunities.
5. Complete all necessary filings with the IRS, State of Florida, RID etc. on time.
6. Continue to pay all expenses for the organization in a timely manner.
7. Seek fundraising opportunities to support programs FRID administers.
8. Take action on member concerns and actively participate on the FRID Board of Directors.

The membership of our organization should be commended for its support of the FRID board, as well as the active role some of our members play in the operation of our professional organization. There is a lack of workshops being provided via FRID in the state of Florida and there is a continued need for our members to step forward and be involved in fundraising, providing workshops, board and committee service. FRID is a viable and much needed organization for the interpreting community in the state of Florida, each member should give consideration to serving in some capacity within FRID to support their state and local communities, no matter how minor. It takes a community!

Personally, I have enjoyed the challenge as tenure as Treasurer for the past two-plus years and feel the position is more organized than when I began as interim Treasurer in 2013. And we saw a profit! This is due to the team work I have found with the Board members I have worked with, and the diligent work with, and of, the Bookkeeper. I look forward to devoting more time to my PhD studies, but also participating in other FRID activities in what capacity is needed.

Sincerely,

Terri Bugler, M.A., CI & CT
Treasurer FRID

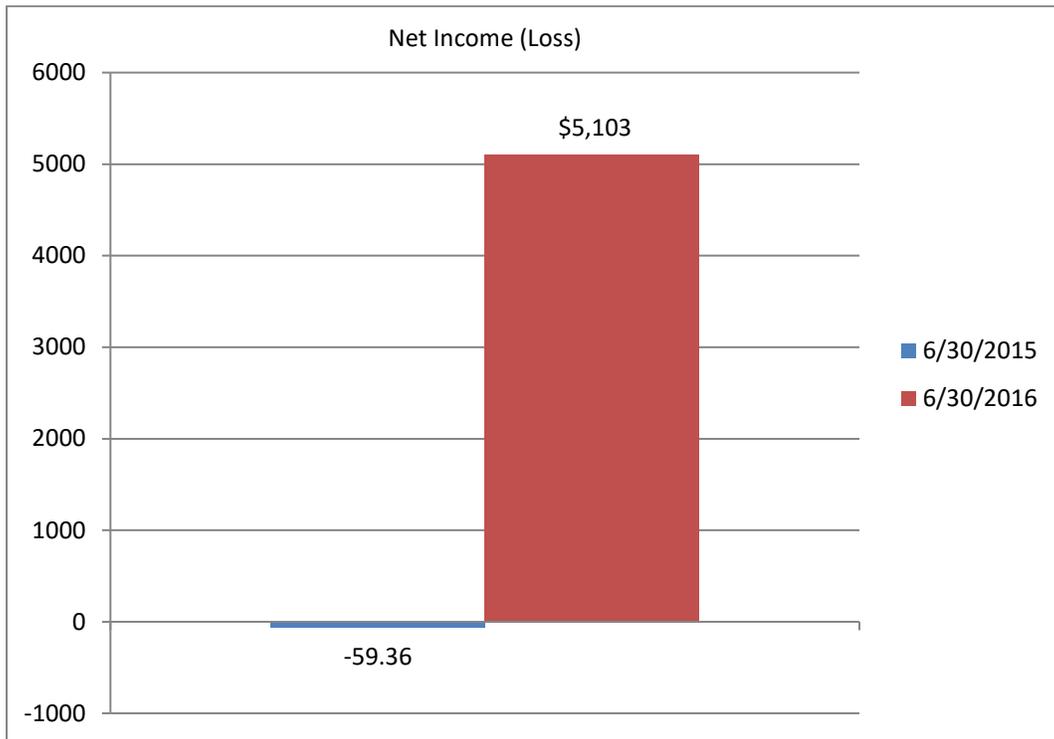

Financial Report 2015/2016 Fiscal Year Submitted by Brett Porter, Bookkeeper

Cash Balances:

Overall, FRID ended the fiscal year with a healthy cash balance of \$58,894. At no point during the year were there ever concerns as to whether or not FRID would have the money necessary to pay its bills. This is the mark of a healthy organization. The only recommendation would be to wisely invest some money in some type of liquid account. This is too much money to be sitting in a bank account earning virtually no interest. There are several banks that offer interest rates of 10x more for a standard checking and 100x more for a savings account.

Net Income:

As shown in the graph, FRID showed a net income (profit) of \$5,103. This is an increase over the previous fiscal year's loss of \$59. The profit is due largely to the board's diligence in rooting out unnecessary expenses. Breaking even or having a profit is crucial in the future of the company. A significant loss for several consecutive would mean cash flows would deplete quickly. It is encouraging to see that over the last two years, FRID has almost broken even (2015) and shown a profit (2016). As long as the board continues to budget to break even or to have a profit, the financial outlook should be good.

Disclaimer: This report is intended for the private use of FRID at their ABM. This report by no means provides any sort of assurance regarding the going concern of the organization to anyone outside the organization.

Interpreter Regulation Committee Annual Report

Terri Schisler, Chairperson

2015-2016 Activities:

- The Educational Interpreter Qualifications bill (CS/HB 705, SB 916) passed unanimously in the House during the 2016 Session. The bill stalled in the Senate and other attempts to gain support failed. Rep. Berman is still willing to sponsor the bill for 2017. We need to find a Senate sponsor since Sen. Altman is running for a House position. We have had conversations with Sen. Hutson (St. Johns, Putnam, Flagler counties), no decision can be made until the November 8 elections. All bills need to be ready to submit as soon as possible after the November elections. The committee process will begin soon after and session begins on March 7, 2017.
- Requested and received approval for a formal study to provide data on number of students who are deaf or hard of hearing and sign language interpreters in Florida K-12 programs. Sen. Altman made the request to the Senate President on our behalf. The resulting report will prove invaluable to the ongoing efforts to establish standards for educational interpreters.
 - *Office of Program Policy Analysis & Government Accountability (OPPAGA)*
Research on Students Who are Deaf or Hard of Hearing and Educational Interpreters
(Feb. 2016)
- The FAD and FRID boards collaboratively agreed to not renew the services of our legislative consultant. While this is a critical role in advising the organizations to navigate the legislative process, the cost to maintain these services has exhausted the financial resources of the organizations. In addition, the current political climate for our issues has become very complex and the board members and committee Chairperson felt we needed to look elsewhere to get the support we need.
- 2017 Deaf and Hard of Hearing Awareness Day (Rally in Tally), March 22, 2017. We have appointed Alecia Castro and Carly Hudson as Co-Chairs of the committee. They have recruited others to fill the necessary committee roles. They are making great progress in planning for this important annual event. Please let them know if you are able to join them. We are also looking for members who will attend the rally and participate in meetings with our legislators.

Ongoing Advocacy Concerns

- Status and Funding for the Florida Coordinating Council for the Deaf and Hard of Hearing (FCCDHH)
- Continued Funding for Auditory-Oral Education Programs and Early Intervention programs
- Florida Capitol Accommodations Policy
- Access to Emergency Information

Committee Concerns

I have had the pleasure to work with and benefit from some of our most esteemed colleagues while working on this committee. I want to thank each of them for their support. I have learned from them every step of the way. However, efforts to recruit more committee members and others who can actively advocate in their communities and in Tallahassee have been

unsuccessful. This work cannot be done by a handful of members. It cannot be done by one organization. With ever increasing challenges presented in Tallahassee, I recommend that FRID and FAD reach out to other stakeholder organizations to create a coalition that can address these legislative and policy concerns. Those organizations need to present a united front and collaborative spirit with combined resources in order to begin making progress in addressing the needs of the deaf community and the interpreters who provide services.

As such, I hereby submit my resignation as Chair of this committee. I am willing to remain involved with the process as much as I am able. I hope that FAD and FRID can continue this important work.

Emergency Management Interpreters for the Deaf Committee Report Stevie Fenton, Chairperson

EMID committee members: S. Fenton, T Schisler, and L Crosby

Requests of Board and Members for 2015-2016

Consider suspending the committee until such time as the state agency stakeholders are willing and interested in engaging in further discussion and activity on the charge of this committee. Movement on the goals has become stagnant for over a year. External stakeholders are satisfied with current situation and report no need to implement further procedures or practices on a statewide level.

Current Situation:

- Inclusion of interpreters in televised press briefings have increased around the state during weather related events. This indicates that external stakeholders are at least sensitized to having interpreters. Monitoring the interpreters is outside the committee's purview.
- FRID EM members continued to meet with DoH and DEM personnel as possible to discuss possible procedures to include in EM settings. EM has declined establishment of a standard statewide procedure or funding of additional trainings.

Background:

- 2011 - FRID approved the creation of the EMID committee in 2011.
- 2013 - FRID EMID members met with Department of Health [DoH] and Division of Emergency Management [DEM] to request support of the creation of a process for utilization of interpreters within emergency management [EM] procedures.
- 2013-2015 – FRID Members attendance on state level task force on provision of services for persons with disabilities.
- 2015 May – State level EM personnel contacted actual trained interpreters during a mock hurricane exercise – 11% responded.
- Training Interpreters - Since 2012 - Multiple trainings were provided throughout the state to interpreters on all spectrum of interpreting in EM environments. Statewide there are hundreds of interpreters who have attended at least some of the training sessions.
- Training EM personnel – Since 2014 – Training provided to EM personnel during various training opportunities to sensitize to the needs of effective communication and interpreter provision including regional Governor Hurricane conferences. In addition, committee members were included as members of a task force on Emergencies and Access for members of Vulnerable Populations.

2015-2016 Accomplishments:

- EMID Committee members worked with DoH lead Public Information Officer (PIO) to create a webinar addressing the use of interpreters during press conferences. Two trainings were accomplished with over 100 PIOs in attendance from DoH and DEM as well as other Communications and ADA Coordinator attendees. Plans are to archive the presentation for viewing at will.
- Meetings with DoH PIO personnel were held to create a Just In Time training document for media personnel about the framing and inclusion of interpreters. This discussion was placed on hold when relevant DoH personnel were reassigned.
- Presentation at the Governor's Hurricane Conference on Effective Communication during Emergencies.
- EMID Chair, S Fenton, attended the Statewide Hurrex (mock exercises of disasters and emergencies to verify personnel abilities, procedures, and resource allocations) as an Observer attached to her full-time job. S Fenton discussed the provision of services to persons who have disabilities or are Deaf within the exercise with relevant stakeholders.
- Conversations with state level EM and Communications Dept personnel indicate that they recognize the need for interpreters at press conferences.

EMID Committee Goals at Committee Inception

- Goal #1 - To develop training and educational requirements for emergency management, sign language interpreters [for the deaf] (EMID) – **COMPLETED**
- Goal #2 - To develop a state level credentialing process and deployment strategies for qualified, emergency management, sign language interpreters – **IN DRAFT BUT EXTERNAL STAKEHOLDERS HAVE OPTED NOT TO IMPLEMENT**
- Goal #3 - To establish partnerships with state and local emergency management and disaster response agencies - **STATE LEVEL ESTABLISHED, LOCAL IN SOME AREAS**
- Goal #4 - To assist state and local governments with integration of Sign Language Interpreter Strike Teams into all phases of the Emergency Management cycle including the ongoing planning and training activities. – **NOT ACCOMPLISHED BASED ON STAKEHOLDER FEEDBACK**
- Goal #5 - To facilitate state to state mutual aid opportunities of trained, qualified interpreters – **NOT ACCOMPLISHED BASED ON GOAL 4**
- Goal #6 - To secure ongoing funding to support the readiness of interpreters for emergencies/disaster – **FUNDING DISSOLVED IN 2015 and has not, at this point, been resubmitted due to changing EM priorities**
